RE: APPRECIATION

On behalf of the School Committee, teachers, parents and the pupils at large, I sincerely express my appreciation and gratitude to the **Government of the United States of America and its people** for your great generosity you have contributed to our school and continue with the same spirit in future.

Sincerely Sir, the community have being up and down, day and night looking for all means to install electricity at our school so that the institution can cope up with the modern technology and having conducive learning environment just like other schools in our republic.

The way you came up and help the community, it is a very big boost to the school, not easy to be forgotten, where so many programmes now can be started on without any blockage / delayed, hence improve the standard of education in the area.

Again Sir, we also appreciated after giving out the contract of wiring the computer classroom, where now we have two fans, four tube lights and ten plugs for computers and ceiling the whole classrooms. This was also a very great boost to the school. Thank you very much.

May the Almighty God bless the Government of United States of America and its people. In God We Trust.

Yours sincerely

**Atrash Abdalla

DJIBOUTI - AFRICA**

Dear Sir,

RE: APPRECIATION

This is to register our utmost heartfelt gratitude to your government through the Commander, CJTF – HOA, DJIBOUTI – AFRICA for a number of development and humanitarian projects initiated in Lamu District. To mention a few, the Bargoni Primary School, Wiyoni Primary School, Water reservoirs for Kizingitini, Faza, Mbwajumwali Dispensary and Patte Bore holes.

We thank you for your recognition of Kiunga as marginalized area in the fields of road infrastructure and for your undertaking of various development and humanitarian projects like repairs of community water reservoirs to alleviate water shortage, renovations of Kiunga Primary School where most students were learning under trees.

It is our hope you will also focus more on Kiunga Division due to its poverty and lack of infrastructure.

We thank your team mainly the US Army for the co-operation on which they build strong friendship relation to our people through their leaders namely Capt. Joel and Randy. We really appreciate their commitment as a result of which the community understood AMERICANS as friends to the entire world and NOT enemies as had been earlier propagated.

We thank the US government and all its envoys.

May God bless America.

Faithfully yours,

.....
SH. ABDALLA BAABAD
CLLR. KIUNGA WARD.
